|----------|--|-------------------------------------|---|---------------------------|----------------------------|---------------------------|----------------------------|
| Target   | <b>65.1</b>                            | <b>70.6</b>                         |   |                           |                            |                           |                            |
| Cal-Agri | 66.0                                   | 71.6                                | 12  | 65.5                      | 66.2                       | 71.1                      | 72.1                       |
| FGIS/QAS | 66.1                                   | 71.3                                | 3   | 65.6                      | 66.6                       | 70.7                      | 71.7                       |
| BAR      | 66.5                                   | 71.7                                | 3   | 66.1                      | 66.9                       | 71.6                      | 71.8                       |

**This supplemental data represents a new “target average” established October 2024.**

**California Agri data represents the average of three reference samples per each of the 3 mills run on 10/28/2024.**

**FGIS/QAS and BAR data represents the average of three reference samples each.**

**BAR = Board of Appeals and Review, Kansas City, MO.**

**All samples were from the same reference sample batch and were run just after warm-up.**

**Brown Rice measurements included for this survey period were using the Yamamoto Sheller.**
